REVENUE DEPARTMENT.**PRESS COMMUNIQUE.**

No. 655.—

For St. George, September 7, 1937.

The *Aggravation of Loans (Madras Amendment) Act*, and the rules framed thereunder, enabling the grant direct by the Government of loans for the relief of indebtedness among agriculturists were brought into force in October 1935. The rules were published in the Revenue Department Notification No. 321, dated the 20th October 1935, at pages 1407-1492 of Part I of the Port St. George Gazette, dated the 20th October 1935. The scheme was first started in an experimental manner in certain blocks of the Madhavaram and Compton blocks of the Chingleput district and in the Ramachandrapur and Rajahmundry blocks of the East Godavari district. A Deputy Collector under the designation of Special Loans Officer was employed in each of the two areas mentioned with a staff of clerks, Revenue Inspectors and peons.

In June 1936, the scheme was extended to certain areas vizably those not served by the land mortgage banks in the districts of Raman, Kurnool, Anantapur, Salem, South Arcot, Trichinopoly, Malabar and South Kanara. The work in the Anantapur district was wound up by the end of December 1936, and that in the Kurnool district by the end of February 1937. The Nellore district was taken up in the place of the Anantapur district and the Guntur district in the place of the Kurnool district.

An essential feature of the scheme is the scaling down of the amount of debt legally due to a creditor. The rules were amended in the first mortgage so as to ensure, in the minimum, the scaling down of the debt to the principal, plus 5 per cent simple interest or twice the principal, whichever was less. It was subsequently found from experience that this limit of 5 per cent restricted the usefulness of the scheme in some districts. The Government have therefore enhanced the limit to 5½ per cent with effect from March 1937.

The progress made in the working of the scheme during fiscal 1935 and in fiscal 1936 is shown below:—

	Provision of loans.	Fiscal 1935.	Fiscal 1936.

The names of quarries, pits, etc., wherefrom certain materials are to be obtained will be given in the Executive Specification, Sheet 1. The best class of material is to be obtained from the quarry or other source defined, that he used on the work. In every case, the tenderer must comply with the selection standard specification. Samples of materials as called for in the standard specifications or in the tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the right to use of such work is given. If the contractor, after presentation of the nature of materials offered in the Executive Specification, Sheet 1, is of opinion that specimens complying with the standard or other specification of the contract cannot be obtained in quantity or sufficient quantity from the source defined in the Executive Specification sheet, he shall so inform, in his tender and state alternative sources to obtain material, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a tenderer's rate pay any extra charges for fuel or for any other reason, in case the contractor is found later on to have employed the materials available. Attention is also directed to the standard "Preliminary Specification" regarding payment of wages, etc., etc.

8. The tenderer's particular attention is drawn to the amounts and classes in the standard "Preliminary Specification" dealing with—

- (i) test, inspection and rejection of defective materials and work;
- (ii) storage;
- (iii) maintenance plant;
- (iv) water and lighting;
- (v) clearing up during progress and for delivery;
- (vi) accidents;
- (vii) delivery;
- (viii) particulars of payment.

The contractor should clearly define the specific items shown which govern the rates which he is making.

9. A schedule of quantities accompanies the tender notice. It shall be distinctly understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, additions, or alterations at the discretion of the Executive Engineer, Public Works or as set forth in the conditions of contract. The tenderer will, however, for his own benefit, study this schedule of quantities. He should quote specific rates for each item in the schedule and the rates should be in currency, means and in units of three paces. The rates should be stated both in words and figures and the units in words. The tenderer should also state the nature of each item and the proposed type of the whole contract, and quote in the tender's envelope for which he will undertake to do the whole work subject to the conditions of contract. The schedule accompanying the tender notice shall be written legibly and free from erasures, alterations or corrections of figures. Corrections, when unavoidable, should be made by crossing out, indicating, adding and re-writing.

10. Tenderers offering a percentage discount from or increase on the estimate amount, and then not submitting a proper form or in due time will be rejected. Rates or lump sum amounts for items not called for shall not be included in the tender. No alteration shall be made by the tenderer or the contractor later, the conditions of contract, the drawings, specifications, or quantities accompanying same will be irrevocable and, if any work alterations are made, the tenderer will be held.

11. The tenderer should work up his own rates, without reference being made to the Public Works Department's estimate schedule of rates or to the Public Works Department's estimate rates which are not open for inspection by tenderers.

12. The attention of the tenderers is directed to the contract requirements as to the limit of beginning work, the rate of progress and the date for the completion of the whole work and its several parts. The following rate of payment and percentage for cost of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be accepted. Date of commencement of the programme will be the date on which the site for payment is handed over to the contractor.

Period after date of commencement—To be completed within six months after the start is handed over.

13. No part of the contract shall be taken without written permission of the Executive Engineer, or shall transfer be made by payment of money and other way of money payment to the contractor's hand.

14. If tenderer necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders will be received in order and according to instructions.

15. The Executive Engineer or other controlling authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the representative name for a member of the firm, who shall also give his own name, and the name and address of such member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorized officer who shall provide with his name, satisfactory evidence of his authority, and shall furnish a statement in writing, in support of the tender, to be submitted to the Executive Engineer.

2. Each tenderer must pay, as earnest money, a sum of Rs. 50 (fifty rupees) only into the Government treasury at sub-treasury within the jurisdiction of the Executive Engineer concerned to the credit of Revenue Accounts on behalf of the Executive Engineer of the Public Works Department. The earnest money will be refunded to the successful tenderer on completion, after retention as per schedule of retention of the tender or at the expiration of two months from date of tender, whichever is earlier. This refund will be authorized by the Executive Engineer by suitable endorsement on the tender. The earnest money will not be returned to cash or currency notes by the Public Works Department Office.

The earnest money will be utilized in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

3. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall attach upon actualization before him by the Executive Engineer of acceptance of his tender with a security deposit of Rs. 50 (fifty rupees) in one of the forms prescribed in the Public Works Department. The security deposit together with the earnest money and the amount withheld according to clause 11 of the standard general specification of the Madras District Standard Specifications will be retained as security for the due fulfillment of the contract. If a security deposit is made by the contractor he shall deliver the proceeds (if any) to the contractor for payment of earnest money and such deposit will not bear interest. Failure to enter into the required agreement or to make the security deposit as defined in this paragraph shall constitute default of the contractor. The written agreement to be entered into between the contractor and the Government shall be the foundation of the rights of both the parties and the contract shall not be deemed to be complete until the agreement has been signed by the contractor and then by the person whose authority is shown in the tender on behalf of Government.

4. The tenderer shall examine closely the Madras District Standard Specifications, and also the Standard Preliminary Specification retained therein, and sign the Division Office copy of the Madras District Standard Specifications and the Standard Preliminary Specification and also the tenderer shall submit with each tender for the tenderer's use. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras District Standard Specifications and other documents connected with the contract such as specifications, bills, descriptive specifications, bills, drawings, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days, in the office of the Executive Engineer, Public Works.

5. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be such as the work and the tenderer shall quote his rates accordingly. 6. Every tenderer is requested, before sending his tender, to inspect the site of the proposed work. He should also inspect the grounds, and satisfy himself as to the nature and availability of facilities. The nature of the site to be obtained will be given in the Executive Specification sheet. The location of materials to be obtained from the grounds or other

source defined shall be used as the work. In every case the materials must comply with the standard specifications. Samples of materials to be used for the standard specifications, as in the tender notice, or as required by the Executive Engineer in any case, shall be obtained by the Executive Engineer's approval before the tender is sent to the work is begun. If the contractor, after examination of the nature of materials defined in the Executive Specification sheet, is of opinion that materials complying with the standards or other specifications of the contract cannot be obtained in quantity or sufficient quantity from the source defined in the Executive Specification sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract, pay out extra charges for land or for any other item, or for the contractor in kind, later on, to have supplied the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of stipends, etc.

8. The tenderer's particular attention is drawn to the various and clauses in the standard "Preliminary Specification" dealing with the following:

- (1) Test, inspection and rejection of defective materials and work.
- (2) Retention.
- (3) Construction plant.
- (4) Work and lighting.
- (5) Drawing up during progress and for delivery.
- (6) Payments.
- (7) Delivery.
- (8) Provision of payment.

The contractor should clearly permit the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be carefully examined by the contractor, and he shall be responsible for the correctness or completeness of this schedule, and that the schedule is likely to be amended by additions, deductions, or modifications at the discretion of the Executive Engineer. The tenderer will, however, have his language binder on this schedule of quantities. He should specify the price for each item in the schedule, and the price shall be in rupees, paise and in terms of three paces. The rates shall be written with words and figures and the price in words. The tenderer should also state the basis of work done and the agreed basis of the work contract, and that in the tender a lump sum for which he will undertake to do the whole work subject to the condition of contract. This schedule accompanying the tender notice shall be written clearly and free from corrections, amendments or omissions of figures. Corrections, where necessary, should be made by crossing out, striking through and rewriting.

10. Tenderer offering a percentage deduction from or increase on the estimate amount, and then not submitted in proper form at the time will be rejected. Rates or lump sum for which he will undertake to do the whole work shall be included in the tender. No attention shall be paid to the tenderer's, the contractor's, the condition of contract, the division of work, amendments, or quantities accompanying and will be considered, and if any such amendments are made the tender will be void.

11. The tenderer should mark out his own rates, without reference being made to the Public Works Department current schedule of rates at the Public Works Department office, which will be open for inspection by tenderers.

12. The attention of the tenderer is directed to the contract requirements as to the time of beginning work, the date of progress, and the date for the completion of the whole work and its several parts. The following rate of progress and completion shall be observed by the tenderer. The tenderer's rate of work done will be in rupees, paise and in terms of three paces. The date of commencement of the progress shall be the date on which the site (or provision) is handed over to the contractor.

to be completed within six months after the date hereinafter stated.

15. No part of the material shall be added without written approval of the Executive Engineer, nor shall transfer be made by superintendents authorizing officers to be given placed on the contractors' list.

16. If further supplementary information is required, the Executive Engineer of the Division will furnish such data as may be clearly understood that tenders must be received in order, and according to instructions.

17. The Executive Engineer or other superintending authority receives the bids by 12 noon on Monday at the last date without accepting any tender therefor.
